

EXHIBIT A

ASSIGNMENT

As used in this Assignment, the term "Patent Rights" shall mean the following:

- (a) United States Patent No. 6,500,408 entitled "Enamel-Safe Tooth Bleach and Method for Use".
- (b) United States Patent Application No. 09/770,446 filed on January 27, 2001 entitled "Enamel-Safe Tooth Bleach and Method for Use" (abandoned).
- (c) United States Patent Application No. 09/770,443 filed on January 27, 2001 entitled "Enamel-Safe Tooth Bleach and Method for Use" (abandoned).
- (d) United States Patent Application No. 09/770,434 filed on January 27, 2001 entitled "Enamel-Safe Tooth Bleach and Method for Use" (abandoned).
- (e) United States Patent Application No. 10/288,239 filed on November 5, 2002 entitled "Dental Bleach" which is a continuation-part of U.S. Patent No. 6,500,408 (pending).
- (f) All continuing prosecution applications, continuation applications, continuation-in-part applications, or divisional applications claiming priority to any of the above patent applications; and any foreign patent applications (including applications filed under the Patent Cooperation Treaty and/or the European Patent Convention) claiming priority to any of the above patent applications, any patents issuing therefrom, and any reexamined or reissued patents thereof, except those foreign patent applications filed in the People's Republic of China (including the Hong Kong Special Administrative Region) and Taiwan, Republic of China and any patents issuing therefrom.

WHEREAS, JC Technologies, Inc. is the owner of the Patent Rights;

WHEREAS, pursuant to a certain Purchase Agreement, JC Technologies has assigned the Patent Rights to Ultradent Products, Inc.

NOW, THEREFORE, in return for good and valuable consideration, receipt of which is hereby acknowledged, and subject to the terms of the Purchase Agreement, JC Technologies, Inc. hereby assigns the Patent Rights to Ultradent Products, Inc.

JC Technologies, Inc.
